

Name _____

Human Body Systems Review

Purpose:

- 1) to identify the systems of the human organism and describe their functions
- 2) to describe interactions among systems in the human organism

Use the resources in the classroom to fill in the chart. The first system has been done for you to serve as an example.

System	Structures	Function(s)	Interactions with other systems
Circulatory	Heart, blood vessels, blood	Transport materials around the body	<ol style="list-style-type: none"> 1. carries O₂ & CO₂ between body cells and lungs 2. carries nutrients from digestive system to body cells 3. carries hormones from the endocrine system to the body
