Cell Parts Review

http://www.cellsalive.com/cells/cell_model.htm

1. Draw a diagram of a "typical" animal cell.

2. Use the interactive feature to describe the structure and function of each of these cell parts:

Cell Part	Structure	Function
Nucleus		
Lysosome		
Golgi		

Mitochondrion		
Cell membrane		
Ribosome		
Vacuole		

3. Switch to the Plant Cell. Use the interactive feature to describe the structure and function of each of these PLANT cell parts:

Cell Part	Structure	Function
Cell Wall		
Chloroplast		

4. Look at the left hand side navigation; choose PUZZLES. Try the plant and animal cell jigsaw puzzles.
