

Name _____

Microviewer Activity – The Elements

DIRECTIONS: Observe the slides in the microviewer. Read the information that goes with the picture. Draw & color each of the elements you see. List two properties (other than color) of that element under the picture. Use a pencil for your diagrams.

Begin by defining ELEMENT :

1. Carbon	2. Copper
-----------	-----------

3. Gold

4. Silver

5. Sulfur

6. Mercury

7. Platinum

8. Lead

1. What similarities do you see between these 8 elements?

2. What differences do you see between these 8 elements?

3. Why are they all different? Explain your answer.
